

**Letter Explaining Annual Written Notification  
& Individual Application Registry: For Parents**

August 1, 2017

Dear Parent or Guardian:

The Healthy Schools Act of 2000 was signed into law in September 2000 and requires that all schools provide parents or guardians of students with annual written notification of expected pesticide use on school sites. The notification will identify the active ingredient or ingredients in each pesticide product and will include the Internet address (<http://www.cdpr.ca.gov>) for further information on pesticides and their alternatives. We will send out annual notifications starting August 15, 2016.

Parents or guardians may request prior notification of individual pesticide applications at the school site. Beginning August 15, 2016, people listed on this registry will be notified at least 72 hours before pesticides are applied. If you would like to be notified every time we apply a pesticide, please complete and return the form below and mail it to:
